# DEDICATED ROLES DRIVE ON-TIME DELIVERY AND ONGOING SUPPORT

To ensure we launch on time and stay on budget, dedicated roles focus on rapidly ramping up engagements, keeping you informed with high-touch communications, and applying on-demand staff and services as needed.

At the beginning of the relationship, a dedicated Implementation Lead (IL) manages start-up responsibilities usually managed solely by an Operations Delivery Lead (ODL). Often, even before the award is approved, the IL begins clarifying needs and developing an implementation plan so we are ready to hit the ground running. Once the engagement kicks off, the IL then focuses on allocating the right resources at the right time in the right geographies to meet your needs.

To establish, maintain, and nurture our partnerships, an ODL is responsible for full program oversight and serving as a single point of contact for the client. Throughout the entire engagement, the ODL aligns with the client on timelines, strategies, and delivery and is always putting the interest of our clients first.

**Our Implementation Lead and Operations Delivery Lead together to drive faster and better outcomes by providing:**

- **Accelerated startup**
  - **Dedicated oversight, planning, and partnership-building**
  - **Greater stability and on-time, on-budget delivery**

# PERSONALIZED SOLUTIONS TO SOLVE YOUR SPECIFIC CHALLENGES

We know what it takes to reliably provide customized solutions, offering the right outsourcing model and mix of services to meet your exact needs and requirements.

- We can embed our staff within your workforce or take the work fully inhouse using PPD innovations and technologies — or use some combination
- We offer a flexible mix of systems, processes, oversight, and facilities — yours or ours
- Our innovative pricing models accommodate various contract structures from full-time equivalent (FTE), unit-based, outputs-based, time and materials, and hybrid models

And because a key to any FSP relationship is to meet your needs as they change, our advanced capacity management planning provides accurate resource forecasting for large-scale relationships.

In addition, our rebadging solution offers business continuity, flexibility, and potential cost savings. PPD's Staff Transfer team are adept at transferring staff to help clients right size their workforces.
