

4 CONSIDERATIONS WHEN SELECTING AN FSP PARTNER

1

On-time project delivery

Dedicated roles, like an implementation lead and an operations delivery lead, to keep your deliverables on schedule and on budget.

Best-in-class staff to get the job done

A wide breadth of expertise across therapeutic areas and a passionate group of can-do problem solvers – all via the ease of a single partner.

2

3

Personalized solutions

An adaptable mix of processes, systems, oversight, and facilities – whether in a customized, hybrid or full-service outsourcing model – to flex as you need.

Extensive recruitment and training resources for FSP

Rigorous training, an established recruitment model, and ongoing employee development to provide you with the best FSP talent, always.

4

PPD® FSP solutions by the numbers

25-year track record

30,000+ research professionals in over **160** countries across PPD's talent pool
