Integrated Service Solutions

- Unity Lab Services
- Scientific Resourcing
- Compliance Services
- Warehousing & Logistics

Unity Lab Services

Keep focused on what matters the most—your science. Our enterprise solutions team offers a single source for integrated lab services, support, supply management, and more.

- Order management
- Inventory management
- Chemical management
- Dock management
- Lab support services
- Vending services
- Glassware washing and sterilization
- Media and buffer preparation
- Asset management

Scientific Resourcing

We can provide specialized scientific capabilities, working within laboratory and operational environments to support scientific, technical, and regulatory requirements across the full workflow.

- Bench scientists
- Lab operations support
- Data review
- Technical writing
- Program management
- Sample stability management
- Automation and instrumentation support
- Applications administration
- Lab informatics
- Hardware and software validation

Compliance Services

The Fisher Scientific Compliance Services program is here to help you adhere to important regulations, including those outlined in 21 CFR (FDA), 29 CFR (OSHA), and 40 CFR (EPA). By following best practices, implementing robust monitoring systems, and taking proactive steps, you'll not only mitigate risks but foster a culture of compliance. Lean on our team for products, resources, and more that bring safety, quality, and compliance to the forefront.

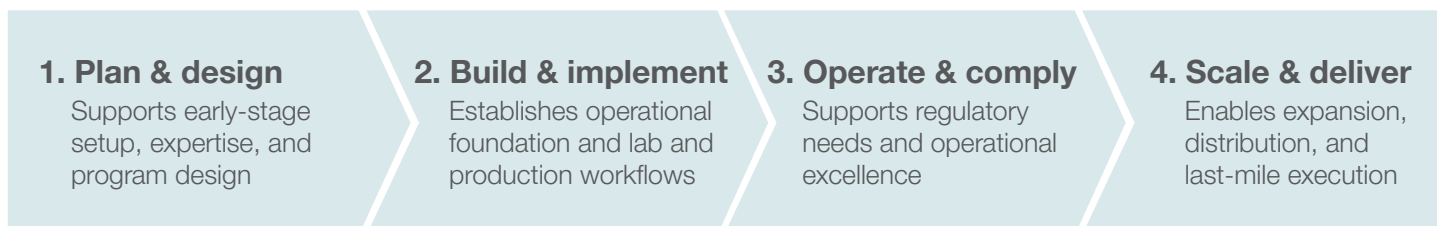

- Assessments
- Training
- Safety services
- Operational productivity
- Lab equipment services (e.g., IQ/OQ/PQ: cold storage, centrifuges, incubators)

Warehouse and Logistics

Use our warehouse and logistics services to simplify fulfillment, enabling you to scale faster with less operational burden.

- Staging and storage
- Partner warehouses
- Room of choice/last-mile delivery

From setup to scale, we help provide ongoing support at every stage to keep your work moving forward:

Why partner with us

Our comprehensive service offerings can help to streamline operations, support regulatory compliance, and improve productivity while reducing risk.

Availability of products and services described here varies based on location, licensing requirements, and applicable laws and regulations. Not all offerings are available to all customers. Please contact us for more information about the services available to you.
